

STEP BY STEP

# Use YouTube Giving Tools

A quick how-to for supporters.

## Steps

1. Check whether your channel is eligible for YouTube's giving features (eligibility varies).
2. If available, add a fundraiser or donation prompt to your video or live stream.
3. Always include [jadabascomfoundation.org/donate](https://jadabascomfoundation.org/donate) in your description as a fallback.
4. Explain the cause clearly in the video and pin a comment with the link.
5. Thank supporters and share results in a follow-up.

### Tip

A pinned comment and description link reach everyone, even if giving features aren't enabled.
